DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 4 & 6-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites that a color transition occurs “in response to a concentration of 0% to about 20% by weight of dialdehyde.” It is unclear how the color change is only responsive to this range of dialdehyde and how there would be a “detectable and measurable” color transition at 0%. Further clarification is required.

Response to Arguments

3. Applicant’s arguments, see remarks, filed 5/2/2005, with respect to the double patenting rejection have been fully considered and are persuasive. The rejection of the claims has been withdrawn.
